Address
#F33, st 10, Samraong Krom, Pou
Senchey, Phnom Penh, Cambodia

Date of Birth
18 - December - 2000

Experience

Member of LBE Project (JICA)

Institute of technology of cambodia l Phnom Penh

Over a period of four months, I collaborated with my professor on a project at school. Our primary goal was to create a device capable of measuring and storing human heart rate data in a database. Throughout the project, I gained valuable experience in team collaboration, hardware components, software development, and programming languages.

Achievements

Participant

Techno innovation Challenge Cambodia l Phnom Penh

This competition offers undergraduate students the opportunity to showcase their innovative ideas or products and compete against other teams. My team passed the first stage with our air quality monitoring project.

Participant

Huawei ICT Competition 2022-2023 l Phnom Penh

This competition have two track such as, Network and Cloud track. I won the preliminary stage and continue to National Stage for Cloud track

Participant

Sakura Science Exchange Program l Japan

This program gives oversea students and researchers the opportunity to learn and showcase about advanced technology in Japan.
